Score Point: 2

This response is considered flawed. A low degree of proficiency is reflected. The writer identifies a favorite gift (a little bear), describes the gift with a little detail (he is a normal size, he is light brown, and his nose is black), and provides a reason explaining why this gift is special (my mom gave it to me). The response is weakly organized, and there is little development. Serious and persistent spelling errors often cause the writing to be incomprehensible.
